### **4. OVERVIEW OF THE COMPANY**

Independent TV Limited was incorporated on 13th May 2005 as Public Incorporated Company.

Independent TV Limited (Earlier known as Reliance Big TV Ltd) is a DTH (Direct-to-Home) service provider. Independent TV is one of the original DTH licensees of Govt. of India and has been a pioneer for content delivery services for many years. Before its satellite signals were disconnected in June 2019, it had a customer base of close to 13 Lakh subscribers and access to a pan-India distribution network of retailers and distributors. One of the few DTH licensees, it is a content delivery platform with the latest technology standards and CPE (customer premise equipment) infrastructure base of HD standard Set-Top-Boxes.

That the business is not in operation since June, 2019 and business establishment i.e. technical establishment is too old about 10 years and CPE devices in the ownership of Pantel Technologies Pvt. Ltd. remain in dispute with the OVT India and the control of the CAS software of setup box belongs to third party therefore, having no control in operation of setup box within the purview of M/s ITVL nor PTPL.

The DTH license has also been suspended by the MOIB and BG has also been encashed. The terms & condition of the DTH license of the renewal the CD is not a position to comply the terms of renewal as stated by the MOIB in his letter dated 10.08.2020. Further, the Antrix Corporation has also been not allow to satellite connection until and unless has made payment the entire dues are pending till date.

That on 23.12.2020 the cabinet approved revision in guidelines for providing direct to home (DTH) services in India. The revised guidelines for DTH operator much easier to operate the DTH business than existing license of the Corporate Debtor for prospective resolution applicant.

Further, observation of valuers on DTH License “apart from the above-mentioned financial assets, there is a suspended DTH license with the company which has been fully amortized as on valuation date. The new DTH Policy was announced on 30.12.2020, which has a simple eligibility criteria and is more beneficial for an operator- ITV would be similarly placed like other participants under new DTH Policy if they either go for the renewal or go for fresh application of license-however the FD’s and amount lying therein could be adjusted for the requisite initial payments under the new policy. Thus, we do not see any value is the suspended license per se and the value of FD is separately accounted for in full under separate head.”
